Global Furniture Group supplies a wide range of products that can help you achieve the Healthier Interiors goal under Healthier Hospitals Safer Chemicals Challenge, Version 2.0.

The goal requires that 30% of the annual volume of furnishings and furniture purchases (based on cost) eliminates the use of formaldehyde, perfluorinated compounds, polyvinyl chloride (PVC), antimicrobials, and all flame retardants.

The following product series can be specified to meet this criteria:

**Soft Seating**
- Adeline
- Aubra
- Careflex
- Doctor Buddy
- GC Citi
- GC Belong
- GC Sirena
- GC Wind
- Nourish
- Primacare HT
- Primacare Modular
- Strand

**Multi-Purpose Seating**
- Curtsy
- Duet
- Frolick
- GC Comet
- GC Sidero
- Popcorn
- Sonic
- Splash

**Lab Seating**
- Industrial Granada
- Minotaur

**Task Seating**
- Malaga
- Vion
- Truform
- Granada Deluxe

**Benchs**
- Primacare HT

Note that numerous other product series can be specified to meet criteria, dependant on customer selection of options and finishes. Please speak to a member of our sales team for more information.

**Exceptions:** Product will be non-compliant if customer specifies an upholstery that is vinyl, stain/water-repellant treated, flame retardant, and/or antimicrobial. Products ordered to meet flame retardant standards such as Cal 133 will be non-compliant. Specification of a wood armcap/legs, or laminate table top/tablet arm (with PVC edging) may also produce a non-compliant option.

Customer is responsible for specifying upholstery/options that meets the above criteria, or, customers may choose to provide COM.

Furniture described herein meets the Healthy Interiors goal of the Safer Chemicals Challenge according to the manufacturer. Practice Greenhealth does not verify this information.

Current as of June 2017.
