Healthier Hospitals encourages manufacturers to provide information on furniture and fabrics that meet the Healthy Interiors goals of the Safer Chemicals Challenge. The furniture and fabrics listed herein comply with the criteria outlined in the Healthier Hospitals Healthy Interiors challenge according to KI and Pallas Textiles.

To make certain that your product selections meet the guidance, please refer to the last page of this document for details and clarification. Please note that individual customer choices may impact the overall product content as well.
## Seating

The goal of the Healthy Hospitals Safer Chemicals Challenge, Version 2, is to ensure that 30% of the annual volume of freestanding furniture and medical furnishings eliminate the intentional use of formaldehyde, per-fluorinated compounds (PFCS), polyvinyl chloride (PVC), antimicrobials, and all flame retardants. Details regarding the usage of these chemicals and treatments for KI and Pallas Textiles are described below.

1. FORMALDEHYDE

2. PERFLUORINATED COMPOUNDS (PFCS)

   Fabrics must not use water or stain-repellent treatments that contain perfluorinated compounds (avoid Nanotex, GreenShield, Alta, and other similar treatments).

3. POLYVINYL CHLORIDE (PVC)

   Products must not contain PVC. To avoid PVC in tables, order 74P edging (plastic) or self-edging (laminate). To avoid PVC in seating, vinyl upholstery must be avoided. Components that constitute less than 1% of the product by weight are exempt.

4. ANTIMICROBIALS

   Fabrics must not be treated with an antimicrobial process (avoid BioAM Antimicrobial, Crypton, Incase, and other similar processes).

5. FLAME RETARDANTS

   Products and fabrics must not use any flame retardants. Customer’s own materials must follow the same guidelines.

KI and Pallas Textiles have identified the products and fabrics listed herein that meet the Healthy Hospitals Safer Chemicals Challenge, Version 2. Please note that this program is NOT a certification, and Practice Greenhealth does NOT verify this information. For additional information or questions, please contact robin.kunstmann@ki.com or dean.lindsley@pallastextiles.com.
