To Whom It May Concern,

The following Poltrona Frau products comply with the Healthier Hospitals 2.0 for Safer Chemicals Challenge:

- Pitagora;
- Thea.

Poltrona Frau confirms that the products above will meet the \textit{Healthier Hospitals Initiative - Safer Chemicals Healthy Interiors Guidance}, which requires that all of these products:

- Have no chemical flame retardants (and comply with TB117-2013, with all upholstered seating labeled as having “no added chemical flame retardants”);
- Have no antimicrobials, unless added to raw materials for the sole purpose of preserving the product; *
- Have no long- and/or short-chain per- and poly-fluorinated alkyl compounds and no fluorinated polymers used as stain, water, or oil resistant treatments;
- Comply with the ANSI/BIFMA e3-2014 Furniture Sustainability Standard, Sections 7.6.1 and 7.6.2; and
- Contain less than 1\% (one percent) of polyvinyl chloride (PVC) by weight, excluding electrical components*.

Meeting these criteria will not incur any implications in regards to cost, lead/delivery time, or warranties.

Additionally, we confirm the following information about our products and verification process:

- Poltrona Frau can confirm that antimicrobials or PVC are not present in any products
- We work very closely with the suppliers to follow the specifications to ensure that chemicals are avoided, and Poltrona Frau confirms that it will adhere to these requirements.
- Regarding any exceptions, Poltrona Frau requires the certificate of COM fabrics, for example, or for all materials outside of our provision. If the requirements will be for a non-standard compliance, Poltrona Frau simply requests the required fire code at the beginning of the project, so we can provide the correct materials to be compliant.
Disclaimer:
Furniture described herein meets the Healthy Interiors goal of the Safer Chemicals Challenge according to the manufacturer. Practice Greenhealth does not verify this information.
